

Grit Suppliers

Builder's merchants across High Peak stock supplies of salt / grit in 20 or 25 kg bags, some also supply larger bulk ton bags for industrial use. Members of the public can purchase grit / salt from the sites listed below who have agreed to maintain stocks throughout the winter period to ensure residents have access to a ready supply. There are also various hardware shops throughout the borough which supply grit in smaller quantities but are not able to guarantee the larger stock levels of the builder's merchants.
